

## FAIR GROUNDS A BLAZE OF LIGHT

**Exhibition Buildings Will be Brilliantly Illuminated at Night by Thousands of Incandescent Bulbs—A Miniature Lake with Electric Effect at Night Will be One of the Attractions**

The finishing touches are now being put on the new exhibition grounds and all will be in readiness for the opening of the biggest fair in Edmonton's history on Tuesday afternoon next. The great advantage which has been made in the last few years is that the morning and afternoon representative who visited the grounds in company with Manager Harrison. The grand stand

be working for the last week. It will be completed without difficulty Monday night. The greater part of the roof is now in place and the rats are already being built into the same. A corps of carpenters are engaged in putting up the attraction and the grain will be seen out in stock just as it has been taken from the binder. This exhibition will be made in addition to one of assorted samples, which will be on display in one of the buildings.

All privilege spaces available in the

Travel walks, green lawns, groves of trees and pretty flower beds will meet the eye of the visitor to the fair on entering by the main gate at the southwest corner of the grounds. The new buildings, of all kinds are being erected. There will be many lunch counters, for the convenience of visitors, besides the main dining hall of the association to the east of the grand stand. In this

which have been well graded, lead from the gate at Willow avenue on the east side of the grounds. All carriages and vehicles will enter by this gateway.

**WILL ENLARGE BARRACKS**

LONDON, April 17.—(Moinant, the estate, who yesterday fore from Paris, said he had been in the night to fight, left Avignon at five o'clock.

new Attorney General Mitchell said he would be "immediately" landed at Calais at 7:15 a.m. clock.

After a brief stop in the French district, took the attorney general down to the Mounted Police detachment, where he showed him the conditions under which the police were working, and how badly accommodation was needed.

Attorney General Mitchell assured the police and the military that he would make every effort to see that additional accommodation at the barracks would be made available.

After the visit to the barracks, the creation of a jail for the Calais district by the provincial govern-

**Stock Market Drops**

New York, Wall Street, Aug. 17.—The market dropped downward again today, with the Dow Jones Industrial Average ending at 284.34, St. Paul 14 and Amalgamated Copper a point.

**Playboy at Queen Sound**

Toronto, Aug. 16.—During his trip to the north coast of Lake Erie, Playboy expressed the government's endorsement of the million dollar dredging project.

## CONVENTION WILL BE GREAT CHURCH EVENT

Montreal Preparing for Eucharistic Convention to be Held in That City in September—Interesting Story of the Eucharistic Convention.

Montreal, August 14.—Montreal is making immense preparations for the Eucharistic convention which is to be held here during the first week in September. The convention will be a remarkable and memorable one, for it will be the first time that the Eucharistic convention has been held in America, and it will take place under auspicious and conditions supremely appropriate to the occasion. Montreal is not only the first Catholic city in America, for many respects it ranks in the history with the famous Catholic cities of Rome, Alexandria and Antioch. During the reign of the Tsars and the Valois, Jacques Cartier, a French explorer, sailed up the St. Lawrence, and first of white men beheld that wondrous mountain in the midst of the island formed by forks of the Ottawa and the St. Lawrence. From the island of the mountain, he beheld the wooded slopes of the mountain, made a profound impression of Jacques Cartier, named it Mount Royal. His description of this mountain caused the fancy of all that was poetic and romantic in France, and Henry IV. and Richelieu planned to build a city beneath the shadow of Mount Royal. The city of Montreal was the result of this plan, and the city of Montreal was the result of this plan, and the city of Montreal was the result of this plan.

Great and glorious city from every land and clime will meet in September, and will view the Eucharistic convention. The city of Montreal will see a city that is the result of this plan, and the city of Montreal was the result of this plan, and the city of Montreal was the result of this plan.

Early settlement. In the latter part of the 17th century the most brutal and bloodthirsty cannibals in the world, and yet, Richelieu had dreamed of the city of Montreal, and the city of Montreal was the result of this plan, and the city of Montreal was the result of this plan.

Course of Church Work. But I am running ahead of my story. The settlement of our Lady of Mount Royal was essentially and for all a missionary colony. Louis XIV. turned the whole island over to the Sulpicians, and for one hundred years thereafter our Lady of Mount Royal becomes the centre of the missionary work and of the exploring expeditions of New France. How little the world yet knew of the deeds that the missionaries were doing in the wilderness, how little the world yet knew of the deeds that the missionaries were doing in the wilderness, how little the world yet knew of the deeds that the missionaries were doing in the wilderness.

DECLINE PUBLIC HEALTH. Florence Nightingale Requested Quiet Burial in Her Will. London, Aug. 16.—The executive of the will of Miss Florence Nightingale, the "Angel of the Crimea," who died Saturday, definitely declined today the offer of a public burial in Westminster Abbey among the historic great of England. They consider themselves bound by the terms of her will, in which she expressed a wish for a simple private funeral. On account, however, of the greatness of her fame, a special service was held in the morning in England immediately after her death looking to a state funeral with interment in Westminster Abbey.

When you want to clear your house of flies, see that you get WILSON'S. Imitations are always unsatisfactory.

## RAIN BENEFITTED SOUTHERN ALBERTA

Moisture of Past Week Dispelled Fear of Succession of Dry Years—Land in Splendid Condition by Improved Methods of Farming.

Calgary, Aug. 16.—Although the splendid rains which have been falling for the past week have a little too late to save a bountiful crop, the farmers of the southern portions of Alberta, still are not at all dismayed that the moisture will prove beneficial to the crops. More rain has fallen during the past six days in the section of Alberta than in the six months previous, or even since last fall. Its effect on the grass on the prairie already appeared, and with a month more of such fine, warm growing weather as we are now having the bare spots on the prairie will take on another carpet of green. The forest fire along the mountain sides and in the foothills country have been completely extinguished. The danger of a drought is anticipated in that line this season.

The soil was greatly benefited by the late crops, and fields that were counted as almost worthless may now produce a fair crop of at least fodder for cattle. Dispelled Fear of Dry Seasons. It was that altogether the greatest benefit of the rain is that it has dispelled the feeling which appeared to be gaining ground in some sections of the province, was the danger of a succession of extremely dry years. Had the present rains come a month ago, Southern Alberta would in all probability have been a barren land this year.

It did not, however, come at that time, and now that the moisture is here and the weather has been such that it has soaked into the ground, it will do much to help the crops. The crops are now in a splendid condition, and the farmers are now in a position to harvest them. The crops are now in a splendid condition, and the farmers are now in a position to harvest them.

Large Area Prepared for Crop. The present summer saw a larger area of land than has been seen in any year in the history of the province. The crops are now in a splendid condition, and the farmers are now in a position to harvest them. The crops are now in a splendid condition, and the farmers are now in a position to harvest them.

Feeling of Optimism. Of course, it is not making a long way ahead, but no one will deny that the moisture that fell during the past week has done much to help the crops. The crops are now in a splendid condition, and the farmers are now in a position to harvest them. The crops are now in a splendid condition, and the farmers are now in a position to harvest them.

FOUND WITH THROAT CUT. Private Detective in Search of Murderer of Man. A private detective in search of the murderer of a man, who was found with a throat cut, has been successful in finding the murderer. The murderer is now in custody, and the case is being handled by the authorities.

Edmonton Public School Board,  
GEO. E. TURNER,  
Building Commissioner,  
Fortlake Block, Edmonton.

## THE TIME LIMIT IS INADEQUATE

Homesteaders' Excursion Tickets Issued by American Railways to Canadian Ports Useful

On several occasions complaints have been received at the immigration offices from Americans seeking homes in Canada, especially from the Arkansas and the states adjoining, in regard to certain homesteaders' excursions run by American railways to Canada. The New York Central Railway and the Western Union.

It is the practice of the American railways to run homesteaders' excursions and to issue round trip tickets which are good for twenty-five days only. The purchaser of the ticket must board a train on the return journey twenty-five days after the ticket is issued, for fear that date the return fare is worthless.

No Use for Extended Trip. This excursion ticket is a satisfactory for homesteaders who only desire to go to neighboring states to look for land, but it is practically of no value to a man who intends to seek land in the Canadian West, as the time limit is obviously too short.

Notwithstanding the fact that the railway companies are advertising these homesteaders' excursions as suitable for Americans wishing to go on land in Canada. Most of the excursions are run from Canada from Arkansas are manifestly unacquainted with the conditions existing in the Canadian West, and do not in the least realize the extent of the country which they are to look over before locating on land, or the lack of railway transportation to homestead land.

These homesteaders' excursions really mean days' travel from a railroad. Naturally they think that they can accomplish their trip in the required time and are only disappointed when they arrive here and find that the time limit of the excursion is as short as expired and they are as far away from locating on land as they were before leaving their homes. In some cases this nature occurred only yesterday.

A. McConnell and A. Anderson, both Americans from the town of Genoa, Arkansas, stated at the Edmonton Immigration Hall that they both had bought round trip tickets issued by the New York Central Railway to Edmonton for forty dollars, on the 2nd of August. They were advised by the officials and others to buy these tickets as they were a special homesteaders' rate and would meet all their requirements.

They arrived in Edmonton yesterday. The tickets are twenty-five-day tickets and to use the return fare they must board a train for home on August 27th and must therefore have their land and do all their locating in eleven days.

Little Difference in Rate. The regular settlers' rate from Arkansas to Edmonton is \$22.50 one way. This rate may be increased by the citizen of the United States who obtains a certificate from the Canadian immigration agent at his point of embarkation stating that he intends to take up land in the Canadian West. The settler may also get a return fare at the same rate, while the homesteaders' rate may come and go when he pleases.

Therefore the special homesteaders' excursions run by the American railway companies are only for those who do better than the settlers' rate, but for the difference of five dollars the intending settler is obliged to return in twenty-five days.

A case identical with the one brought to light at the immigration hall yesterday occurred in another case. A man from Kansas City came to the immigration office and showed his ticket to the officials. He also stated that he had intended to take up land yet, but he had overheard a conversation at the immigration office in Calgary asking if an extension of time was granted. The answer received was to the effect that the C.P.R. had not issued the ticket that they would do nothing regarding the matter, although the ticket was good on their line.

HON. J. W. MITTON.

At Conference—Father of Premier. Though 77 years old, in good health.

Vancouver, Aug. 16.—Carrying 77 years, nearly four decades as an aviator, during which time he has seen the world build up and down, the father of Premier Bennett, who is president of the Winnipeg Free Press, arrived in Vancouver yesterday on route to attend the Mackay conference.

Mr. Bennett, who perhaps has the closest acquaintance with the development of Canada as any other man, will celebrate his birthday at the Hotel Vancouver, where he was not only born but also grew to manhood. He is a native of the province of Ontario, and his family has been in the business of the Longhorns' Union, was appointed to represent the same.

Another Longhorns' Dispute. Montreal, Aug. 16.—Word was received here today from the Longhorns' Union, Minister of Labor, appointing E. H. L. to represent the Longhorns' Union, to represent the shipping companies on the board of consultation under the Longhorns' Union, and the trouble between the companies and the ship union. The Longhorns' Union, to represent the Longhorns' Union, was appointed to represent the same.

## MEET SWEETHEARTS IN WEST.

Eight Young Ladies Pass Through Winnipeg for Different Points. Winnipeg, Aug. 16.—That the old adage, "Distance makes the heart grow fonder" is a very truth, was demonstrated this morning when eight young ladies from the county of Halifax, in the province of Nova Scotia, passed through the city to their friends and sweethearts at various points in Alberta, Saskatchewan and in British Columbia.

It was declared by a passenger, who travelled in the same car with the girls, that they were in the hurry to marry after arrival at their various objective points. He declared that the subject of coming marriage was the only one discussed by the girls while en route. The fortunate young men who will lead the young ladies to the altar are said to be former residents of the old country down by the sea, who came west a couple of years ago for the purpose of getting together a home.

The attractiveness of the young ladies is tribute to the country from which they come, and while they are at the station this morning they formed a conspicuous group. Several of the number are school teachers by profession. One of the girls attempted to secure an interview from the party. It was found that there was "nothing for publication."

## CONTRACT FOR GRAVEL FOR BRIDGE AWARDED

Huff Gravel Company Secures Contract for 50,000 Yards of Gravel for High Level Bridge Piers at Let.

A hundred thousand dollar contract for the delivery of gravel required for the construction of the new C.P.R. high level bridge has been let to the Huff Gravel Company of Edmonton by the Winnipeg Free Press. ## AMERICANS FEAR THE BIG EXODUS TO CANADA

Remarkable Article Shows That U.S. States is Beginning to Look With Alarm Over Steady Flow of Immigrants Into the Dominion.

Is there a safeguard against the depletion of our farming population by Canada?

Yes. What is it? Advertising, advertising and then more advertising! Carry the war across the frontier! Do what Canada is doing! Spend some of the government money in settling forth to the farmer and business man of Canada the superior advantages of life in the United States.

Then keep on advertising!—The New York Times.

In a recent article in the New York Times the question is asked: Is there a Canadian peril? The article proceeds:

Some of our statements with a weak force for encouraging a farmer or a figure who "says." Long tables furnished by our government experts, approach the subject in a more scientific fashion, and insist that there is to be added on both sides of the question.

To begin, the statistics now being furnished are classified by the Bureau of Immigration and Naturalization for that Canada has much the better of it in the matter of import and export of population, so far as the movement in both directions last year are concerned.

This is a proof of a larger flow of population into the United States than out of it. The experts will not say; probably they do so know.

Canada's Advantage. However, the figures show that 143,232 persons went from the United States in the fiscal year ended last March. On the other hand, about 74,232 persons came into the United States from Canada. The balance is in favor of the United States.

Moving Into Canada. Yet, Americans are moving into Canada. It has been known for a long time. But Americans are coming back to Canada.

For reasons which the dry reports of the government statisticians do not explain. For reasons which the dry reports of the government statisticians do not explain. For reasons which the dry reports of the government statisticians do not explain.

American Returning. In the fiscal year ended last March 31, 1920, about 15,000 Americans returned to Canada.

For reasons which the dry reports of the government statisticians do not explain. For reasons which the dry reports of the government statisticians do not explain. For reasons which the dry reports of the government statisticians do not explain.

Commenting on the increase of Canadian immigration in 1919, Commissioner Clark said:

"These figures show a remarkable movement in the number of Canadian citizens coming to the United States for permanent settlement. The increase approximates 92 per cent. in 1919 over 1918."

The commissioner then makes a calculation concerning the number of American citizens who, after residence in Canada, returned home during the fiscal year of 1918 and 1919.

He found that the number of Americans who returned home during the fiscal year of 1918 and 1919 was 15,000.

What the States are Losing. It is a good thing to take better medicine as soon as possible. One of the most pessimistic discussions of the immigration of Americans to Canada is given recently by the Hon. Joseph R. Randall, Representative in Congress from Louisiana. He says:

"The really sympathetic with sufferers and gladly send you, through the Bank of Montreal, \$5,000 as a contribution to their relief. (Signed) R. Randall."

reached a total in that time of 212,414, or an average of 6,666 yearly. The Commissioner of Immigration at Winnipeg estimates that the material wealth brought in by each of these immigrants was \$1,000. Hence, we have been contributing to Canada about \$212,414,000 a year for five years at least. But that is not the worst of it. These people are nearly all sturdy American farmers—the best breed and blood of our land—who are leaving the farms of our northern and western States in order to secure cheaper lands."

Extent of Exodus. Mr. Randall, employing the following table, showing the number which various States of the Union have contributed to the exodus, is a good point:

From	1907-8	1908-9	1909-10
North Dakota	12,659	16,275	16,139
Minnesota	9,763	7,449	11,674
Washington	4,923	7,217	11,657
Illinois	3,514	2,664	—
Texas	2,458	2,094	—
Wisconsin	2,458	1,886	—
Michigan	2,257	2,069	6,744
New York	1,476	2,247	6,206
South Dakota	1,413	1,131	—
Nebraska	1,413	1,131	—
Massachusetts	1,012	715	6,423

"This is a very serious loss to us." Mr. Randall continued. "It is not in any fair degree compensated by emigration from Canada to our country, nor by a like number of immigrants from any other country, for the people we are losing are full-fledged American citizens, with all that implies, who carry away with them an immense amount of property, while most of the foreigners who come to us are strangers to our institutions and customs, and bring with them in money an average of only \$1,000 each. It certainly behooves the nation to check and prevent this exodus, for by a like number of immigrants we are enriching our Canadian rivals."

How to Meet Peril. A resume of the comparison of the emigration from the United States of population on this continent, with it is fair to presume, less the following emigration to the United States, is as follows:

Is there a Canadian peril? There is! Is there a safeguard against the depletion of our farming population by Canada?

Yes! Advertising, advertising and then more advertising! Carry the war across the frontier! Do what Canada is doing! Spend some of the government money in settling forth to the farmer and business man of Canada the superior advantages of life in the United States.

Then keep on advertising!—The New York Times.

For reasons which the dry reports of the government statisticians do not explain. For reasons which the dry reports of the government statisticians do not explain. For reasons which the dry reports of the government statisticians do not explain.

American Returning. In the fiscal year ended last March 31, 1920, about 15,000 Americans returned to Canada.

Commenting on the increase of Canadian immigration in 1919, Commissioner Clark said:

"These figures show a remarkable movement in the number of Canadian citizens coming to the United States for permanent settlement. The increase approximates 92 per cent. in 1919 over 1918."

The commissioner then makes a calculation concerning the number of American citizens who, after residence in Canada, returned home during the fiscal year of 1918 and 1919.

He found that the number of Americans who returned home during the fiscal year of 1918 and 1919 was 15,000.

What the States are Losing. It is a good thing to take better medicine as soon as possible. One of the most pessimistic discussions of the immigration of Americans to Canada is given recently by the Hon. Joseph R. Randall, Representative in Congress from Louisiana. He says:

"The really sympathetic with sufferers and gladly send you, through the Bank of Montreal, \$5,000 as a contribution to their relief. (Signed) R. Randall."
